

Acclaimed in 2010 by the Horse Journal as “Product of the Year”

Banixx is one of the best and unique products of its category, for products related to wound and skin care. The US market for wound, skin and hoof care is already crowded with various products such as:

- Products in spray form: AluSpray, AluShield, Gentle Iodine Spray, Scarlet Oil Spray, MycAseptic from Neogen and Blu-Kote, Vetericyn , Wound -kote,Scarlex,and Wonder Dust from Farnam,.. just to name a few
- Products in cream form: Fura-zone from Neogen, Fura-Free from Finish Line, C4G Ointment from Uckele, Povidone Iodine Ointment from First Priority, Corona Ointment from Summit Ind.
- Products in lotion form: Povidone Iodine solution, Relief Equine Wound Lotion, Cut-heal. Triiodine-7, Betadine from various manufacturers;
- Products in powder form: Blood Stop Powder, McKillings Dusting Powder.

Banixx, which is an anti-bacterial and an anti-fungal, is simply an outstanding product. Banixx comes in 32oz, 16oz, 8oz, 4oz spray bottles and is no odorless, colorless, not a steroid and not an antibiotic. Banixx is used for horses, large animals and other pets (dogs, cats, birds, ferrets. Banixx is used for the treatment of:

Wounds, post-surgical wounds	Infections	Punctures
Burns	Lacerations	Insect bites
Animal bites	Skin fungus	Hot spots
Scratches	Abscesses & pigeon fever	White-line disease
Rain-rot	Ringworm	Thrush

In terms of **benefits** using Banixx, we can list the following:

Banixx is odorless;so cannot alarm the animal	Banixx has a long shelf-life	Banixx is not staining and there are no added dyes
Banixx is colorless	Banixx is safe around the eye and mouth	Banixx is not irritating;rather a tissue-friendly formula
Banixx is not a steroid and not an anti-biotic	Banixx is environmentally friendly	Banixx does not cauterize infected tissue

Yes! Banixx is a terrific product!
